Helpful Information

Tools:

Gather the necessary tools as shown below to complete the installation of this faucet. Some may not be needed depending on the model of faucet you are installing. Check with your local hardware store on the requirements of your installation situation.

Configuration

Connect to water supply lines with either:
(A) 3/8" O.D. copper tubing ball nose risers with the coupling nuts or;
(B) 3/8" copper tubing (no ball) with supplied tube head interior connector or;
(C) IPS faucet connectors (1/2")

Important

Tighten connection with two wrench to prevent damage to tube body. Be careful not to bend the stem as this will void the product warranty.
